By letter dated July 10, 2018, (Agencywide Documents Access and Management System (ADAMS) Package Accession No. ML18193A689), the Exelon Generation Company, LLC, (Exelon) submitted to the U.S. Nuclear Regulatory Commission (NRC or staff) an application to renew the Renewed Facility Operating License Nos. DPR-44 and DPR-56 for the Peach Bottom Atomic Power Stations, Unit 2 and 3 (Peach Bottom).

Between September 17, 2018 and January 22, 2019, , the U.S. Nuclear Regulatory Commission (NRC) staff conducted audits of Peach Bottom Units 2 and 3 records to confirm information submitted in the Peach Bottom subsequent license renewal application. During the audits, the staff reviewed documents that contain information which will likely be used in conclusions documented in the Safety Evaluation Report (SER). To the best of the staff's knowledge, this information is not on the docket. Any information used to reach a conclusion in the SER must be included on the docket by the applicant. Therefore, we request that you submit confirmation that the information gathered from documents and listed in the enclosure is correct or provide the associated corrected information.

These requests for confirmation of information were discussed with David Distel of your staff, and a mutually agreeable date for the response is within 30 days from the date of this e-mail. If you have any questions, please contact me by e-mail Bennett.Brady@nrc.gov.
